DIGITAL GOVERNMENT COMMITTEE

1. Message to Candidate

“

At Digital Government Committee, we are dedicated to building citizen trust through innovative digital solutions that not only empower communities but also contribute to the development of our country. We aim to put our country on the world map by delivering advanced, impactful digital products and services. By joining us, you will play a crucial role in creating transparent, reliable solutions that shape the future of our nation and strengthen public confidence. **Together, we can build a better tomorrow and elevate our country's presence on the global stage.**

”

2. General Information

Organization	Digital Government Committee
Job Title	Solution Architect
Level	Senior
Location	DGC Olympia
Employment Type	Full time
Salary	Negotiation

3. Role Summary

We are looking for a skilled Solution Architect to design, develop, and oversee scalable technical solutions that align with organizational goals and business requirements. The role involves working closely with stakeholders, development teams, and project managers to ensure systems are secure, efficient, and well-structured, while supporting successful implementation across projects and platforms.

4. Key Responsibilities

Solution Design & Architecture (70%)

- Gather business requirements, user needs, and technical constraints.
- Create the overall system architecture, ensuring scalability, reliability, and performance.
- Evaluate and select the right tools, platforms, and technologies that align with business goals and technical requirements.
- Define how different systems will communicate and work together within the enterprise environment.
- Ensure the architecture complies with industry standards and security best practices.

Collaboration & Execution (30%)

- Work with teams like development, QA, operations, and business stakeholders to ensure alignment across all phases.
- Present architectural solutions to leadership, clients, and other stakeholders to ensure they understand the design and its impact.
- Provide guidance and support to another team members, including junior architects, developers, and operations staff.

5. Qualifications

- Bachelor's or Master's degree in computer science, IT, Software Engineering, or related fields.
- 5+ years of experience in software development, system architecture, or IT consulting.
- Proven experience designing and implementing enterprise-level solutions.
- Strong knowledge of cloud platforms (AWS, Azure, GCP) and cloud-native architectures.
- Experience with different programming languages and databases.
- Familiarity with DevOps practices, CI/CD pipelines, and containerization (Docker, Kubernetes).
- Knowledge of security best practices and compliance standards (ISO 27001, GDPR, etc.).
- Strong analytical and problem-solving abilities.
- Excellent communication and presentation skills.
- Leadership and collaboration skills to guide development teams.
