“

At Digital Government Committee, we are dedicated to building citizen trust through innovative digital solutions that not only empower communities but also contribute to the development of our country. We aim to put our country on the world map by delivering advanced, impactful digital products and services. By joining us, you will play a crucial role in creating transparent, reliable solutions that shape the future of our nation and strengthen public confidence. **Together, we can build a better tomorrow and elevate our country's presence on the global stage.**

”

2. GENERAL INFORMATION

Institute	Digital Government Committee - DGC
Department	Delivery
Job Title	Front-End Developer
Level	Senior
Location	DGC Olympia
Term	Full time
Salary	Negotiation

3. ROLE SUMMARY

We are seeking a highly skilled and experienced Senior Front-End Developer to join our growing team. You will play a key role in architecting, designing, and developing complex user interfaces using modern web technologies and Node.js on the backend. You will collaborate closely with back-end developers, designers, and product managers to deliver exceptional user experiences.

4. RESPONSIBILITIES

- Design, develop, implement high-quality, reusable and maintainable frontend code using ReactJs or any javascript framework
- Be able to create base code for frontend with clean code and quality
- Leverage modern frontend frameworks (React, Angular, VueJs, etc.) and libraries
- Implement responsive designs that work flawlessly across various devices and browsers.
- Optimize code for performance and accessibility.
- Write clean, well-documented and testable code.
- Be able to lead project, doing task break down, conduct code reviews, provide technical guidance and mentor junior developers.
- Integrate seamlessly with any backend service using APIs.

- Troubleshoot and debug issues, ensuring timely resolution and minimal downtime.
- Be able to work with CI/CD, test unit, docker
- Stay up to date with latest frontend technologies and trends.
- Contribute to improvement of frontend development processes and tools
- Helping team finding issue, understand it, and solve it together
- Self-management and leadership
- Flexible working with multi project

5. QUALIFICATIONS

- Bachelor's degree in computer science, Information Technology, or a related field (preferred)
- 3+ years of experience as a front-end developer
- In-depth knowledge of HTML, CSS, and JavaScript fundamentals
- Solid understanding of Node.js concepts and experience with server-side rendering (SSR) or server-side communication (a plus)
- Having a knowledge and experiences with version control systems (Git) and CI/CD pipelines.
- Extensive experience with modern front-end frameworks and libraries
- Experience with unit testing frameworks (Jest, Mocha) and UI testing tools (Cypress, Selenium)
- Strong experience with responsive web design (RWD) principles
- Excellent problem-solving and analytical skills
- Ability to collaborate effectively with cross-functional teams
- Strong written and verbal communication skills
- Passion for building beautiful, user-friendly, and performant web applications
